When Shipper requests Carrier to bill a third party, payment of the charges must be guaranteed by the Shipper if the third party fails to pay such charges within the time allowed under federal credit regulations.

When Shipper, Consignee or the initially designated payer of the freight charges instructs the Carrier to bill the freight charges to a third party and such information is not shown on the bill of lading at time of shipment, an additional charge will be assessed for the new billing, in addition to all other applicable charges. The name of the charge is the Charge is the Bill of Lading Correction Fee. See Carrier's Accessorial Rate chart for current rate.

Item 200: Cargo Loss and Damage Claims

Carrier will assume liability for cargo loss and damage claims under the federal laws applicable to common carriage in effect on the date of the shipment and the terms and conditions of the Uniform Straight Bill of Lading, except as shown herein, or to the extent otherwise specifically outlined in participating tariffs or contracts.

Carrier's liability for cargo loss and damage begins upon Carrier's signing the receipt or bill of lading for property it receives for transportation.

Carrier will investigate and dispose of cargo loss and damage claims under common Carrier provisions as set forth in 49 C.F.R. Part 370, and STB NMF 100 Series, Items 300100 through 300155.

All claims for loss, damage or delay must be filed in writing within nine (9) months after the delivery or reasonable time for delivery has elapsed for non-delivery. When claims are not filed within the prescribed times such claims are barred and will not be paid.

Any lawsuits for cargo claims shall be instituted against Carrier no later than two years and one day from the day when written notice is given by Carrier to the claimant that Carrier has denied the claim or any part or parts of the claim specified in such notice. Where claims are not filed or lawsuits instituted thereon in accordance with the foregoing provisions, Carrier shall not be liable and such cargo claims shall not be paid.

Customer shall not deduct or offset any cargo claim or other alleged claim or debt of Carrier from the charges owed to Carrier unless authorized in writing by Carrier.

Concealed Loss or Damage

Concealed loss or damage is that which was not apparent at time of delivery. Consignee should notify Carrier as soon as damage is discovered and in no case later than 15 days after freight was tendered. Notification may be given by telephone or in person, but must be followed in writing. Claims for concealed damage, where there is visible damage to the cargo, but a clear receipt of delivery, will not be accepted by Carrier and assumed to have occurred after delivery while in the Consignee's possession. Payment for concealed damage shall be limited to \$50.

Freight Charges

Freight charges for shipments where damage or loss claims are filed, are due and payable in accordance with normal payment terms except for shipments where there is no record of the shipment being delivered. A refund of freight charges may be considered as part of the damage claim if it is included in the amount claimed.

Minimum Claim Amount

The minimum amount of a claim that will be considered by Carrier is \$50.

Acceptance of Funds

A claim is considered closed if funds issued as a claim payment by Carrier are accepted by the payee.

Item 205: Incidental, Special, or Consequential Damages

Carrier is not liable for any loss or damage to a shipment or for any delay caused by an act of God, the public enemy, the authority of law, the inherent vice of the goods or the act or default of the Consignor. The burden to prove freedom from negligence is on the Carrier or the party in possession.

Consignor shall, at its cost and expense, comply with all applicable federal, state, local and International laws, rules and regulations pertaining to its cargo and shall be responsible for all costs, liabilities, delays, fines and expenses caused by, resulting from or otherwise associated with any noncompliance by Consignor or Consignor's shipments with any such laws, rules, or regulations. Consignor shall also be responsible for Carrier's charges pertaining to any services by Carrier at Consignor's request for compliance with any such laws, rule or regulations.

In no case shall Carrier be liable, and hereby disclaims responsibility for any indirect, incidental, consequential, special punitive, or multiplied damages or other indirect costs, lost profits, fees, or charges of any kind arising from any service provided or freight claims filed hereunder or any other acts, including delays or omissions of Carrier, whether foreseeable, disclosed or not.

Subject to reasonable requests, Carrier agrees to accept, transport, and deliver with reasonable dispatch such cargo as may be tendered to Carrier for transportation. However, Carrier shall not be responsible for any damages, direct, indirect or consequential, which are the result of delays in delivery.

Item 210: Returned Freight

Carrier will not be liable for loss, damage or destruction of property for shipments being returned to the original Consignor, which were not initially transported by Carrier from the original Consignor.

Carrier shall not be liable for loss, damage or destruction of property for shipments being returned to the original Consignor, which were initially transported by Carrier, from the original Consignor and delivered without exception, when Carrier is not given the opportunity to inspect prior to return.

Item 215: Pallet - Shipment Preparation and Liability

Shipments tendered to Carrier on a shrink or stretch wrapped skid (SWS) or shrink or stretch wrapped pallet (SWP), shall be signed for as ___ SWP(s) STC ___ Pieces or ___ PLT(s) STC ___ Pieces. When a shrink or stretch wrapped pallet is delivered intact, Carrier shall assume no liability for loss or damage discovered therein, either at delivery or after delivery has been performed. In such circumstances, the driver will accept only for shipment the number of pallets, not the number of pieces identified on the bill of lading.

Pallets, at minimum, shall be equal to the length and width dimensions of the freight being shipped. Carrier shall assume liability only for loss, not damage, of freight overhanging the pallet.

Top-heavy or unstable freight shall be strapped securely to the pallet. Carrier shall not be liable for damage caused when freight is not properly secured or when the pallet is defective or insufficient to support the weight of the cargo.

Freight rated as a pallet shall be considered UNCLASSIFIED and will be subject to liability limits associated with such, as shown in the General Limitations of Liability section of this tariff.

Unless otherwise specified within the applicable tariff or contract, Carrier calculates pallet weight as 50 pounds per pallet. The weight of the pallet is excluded when determining indemnity or shipment value.

Item 220: Undelivered Freight

If freight cannot be delivered because of the consignee's refusal or inability to accept it, or because Carrier cannot locate the consignee, or freight cannot be transported because of an error or omission on the part of the Consignor, Carrier will make diligent effort to notify the Consignor promptly that the freight is in storage and the reason thereof.

Undelivered shipments will be subject to applicable storage or detention charges if Carrier does not receive detailed disposition instructions.

Carrier will only follow any applicable Uniform Bill of Lading terms and conditions for disposition of undelivered freight.

Upon request of the Consignor, undelivered shipments will be returned or reconsigned. In such cases, the Consignee and Consignor are responsible for payment of the rates and charges applicable for the original move, the return or reconsignment move, and other services performed.

Shipments moving under the provisions of this item will be subject to all other provisions of the Rules Tariff.

Item 225: Consignor Load; Sealed Shipments

When prearranged with Carrier, Carrier may spot or drop trailer at that Consignor's loading facility so the Consignor may load the trailers or vehicles at its convenience. Any discrepancy on those shipments tendered under the Consignor Load and Count (SL&C) arrangement will be handled in the following manner:

At pick-up, Carrier will include "SL&C" on the Bill of Lading, indicating the Consignor counted and loaded the shipment without Carrier's driver present. The Consignor must properly block and brace the freight. Carrier's failure to note "SL&C" on the bill of lading will not affect the liabilities of the parties, if the Consignor has in fact performed the counting and loading without a representative from Carrier present.

Carrier will provide seals for security purposes to the Consignor when requested. Failure of the Carrier to seal a load will not affect the terms and conditions outlined. If Shipper loads and seals the cargo in or on the trailer and Carrier does not have the opportunity to count the cargo being loaded and the seal is intact upon delivery, Carrier shall be absolved from any liability for shortages or any damage to the lading except when proximately caused by independent action of Carrier. Such absolution of liability will also occur if (i) the seal is broken at the direction and under the supervision of an agent of a body politic, or (ii) trailers are preloaded and the adequacy of loading or count of such trailer is not practical by a representative of Carrier. Carrier agrees that if a seal is broken and an inspection made by an agent of a body politic, its operator or other representative will take all reasonable steps to secure the count, safety, and integrity of the lading. These steps will include requesting that the body politic reseal the trailer and/or make appropriate notation on the freight documentation form. Carrier may break the seal on a trailer if, upon Carrier's determination or that of its operator or other representative, it becomes reasonably necessary to do so to inspect, reposition, or protect the lading or Carrier's equipment or to comply with federal, state, municipal, or provincial laws, rules, and regulations. The Consignee may not refuse delivery of a shipment solely because the seal on a trailer is broken.

Carrier will notify the Consignor's representative of any exceptions within 24 hours of unloading; provided Carrier is made aware of any such exceptions by the Consignee. This will not include weekends or holidays. Carrier cannot be liable for uncountable palletized orders, picked up and delivered with wrap intact.

Shortages will be reported as above. The Consignor will advise Carrier of the disposition of any merchandise that could or should be applied to a valid shortage. In the event of a Consignor caused shortage, the Consignor will allow Carrier to adjust the Bill of Lading accordingly to reflect actual piece count and weight.

Carrier may accept liability for any loss or damage to product that has not been properly reported unless the loss or damage is one of a concealed nature or the Consignor loaded and seals the cargo without the Carrier having an opportunity to count or inspect the cargo being loaded.

Carrier is responsible for transporting units only. Individual item numbers, carton numbers, and purchase order number shortages at delivery shall not be deemed as shortages against Carrier when the handling unit count matches the amount properly reported as received on the SL&C trailer.

Except otherwise provided in this Item 225, Carrier will not decline liability of claims just because the Bill of Lading is noted "SL&C". The burden is Carrier's to either provide a clear proof of delivery, a properly reported exception or payment of the claim. The Consignor agrees not to file claims when discrepancies have been properly reported.

Consignor is liable for any and all damages or loss to the Carrier's equipment while in the physical possession of the Consignor. Acts of God and normal wear and tear shall be excluded. The Consignor will promptly reimburse the Carrier for the cost of repairing or replacing such equipment. Carrier will furnish up to two estimates for repair or replacement of equipment if requested by the Consignor.

Item 230: Consignee Unload

At Consignee's request, Carrier may drop or spot trailers or vehicles at the Consignee's facility so the Consignee may unload the trailers or vehicles. Any discrepancy on those shipments tendered, as CONSIGNEE UNLOAD will be handled in the following manner:

Carrier agrees to spot or drop trailers or vehicles at Consignee's place of business for the purpose of Consignee to complete the unloading process within normal free time or otherwise agreed to in writing.

Consignee will not utilize Carrier's equipment for any use other than the express purpose of unloading.

Detention rules and charges apply. The Consignee is responsible to notify Carrier as soon as the equipment is empty and available for pick up. Failure to provide notification will not exclude the Consignee from detention charges.

Consignee is liable for any and all damages or loss to the Carrier's equipment while in the physical possession of the Consignee. Acts of God and normal wear and tear shall be excluded. The Consignee will promptly reimburse the Carrier for the cost of repairing or replacing such equipment. Carrier will furnish up to two estimates for repair or replacement of equipment if requested by the Consignee.

Carrier will note CONSIGNEE UNLOAD on the delivery receipt, indicating that the Consignee unloaded and counted the shipments without Carrier's driver present. Carrier's failure to note CONSIGNEE UNLOAD on the delivery receipts will not affect the liabilities of the parties, if the Consignee has in fact performed the counting and unloading without a representative from Carrier present.

Carrier may provide sealed trailers with the Carrier's seal number documented for security purposes. Failure to seal a load will not affect the terms and conditions outlined in this item.

Delivery receipts will be signed by the Consignee at time the trailer is dropped for unloading, or if not operationally feasible, will be available to Carrier no more than 24 hours after delivery.

The Consignee agrees to notify Carrier in writing of any exceptions within 24 hours of the trailer being dropped. This will not include weekends or holidays. Carrier shall not be liable for exceptions reported after 24 hours of trailer being dropped at Consignee's location.

Carrier is not liable for uncountable palletized orders, picked up and delivered with shrink wrap intact or for Consignor Load and Count orders that have been properly reported to the Consignor at first unloading. If Shipper loads and seals the cargo in or on the trailer and Carrier does not have the opportunity to count the cargo being loaded and the seal is intact upon delivery, Carrier shall be further absolved from any liability for shortages or any damage to the lading except when proximately caused by independent action of Carrier.

Carrier is responsible for handling units only as signed for and tendered by the Consignor. Individual item numbers, carton numbers, and purchase order number shortages shall not be deemed shortages against Carrier when the handling unit count matches the amount signed for at time of Pick up, or as applicable, properly reported as received on a Consignor Load and Count trailer.

Shipments tendered to the Consignee to be unloaded at Consignee's convenience are to be secured by the Consignee in a manner to prevent theft. Carrier is not responsible for stolen product while in the possession of the Consignee.

Carrier agrees not to decline liability of claims just because the delivery receipt is noted CONSIGNEE UNLOAD. Carrier bears the burden to provide a clear proof of delivery when the documents are returned to the Carrier. The Consignee bears responsibility to provide a written documentation of discrepancy to the Carrier. The Consignee agrees not to file claims when discrepancies have not been properly reported

Carrier will accept liability for any loss or damage to product that has been properly reported unless the loss or damage is one of a concealed nature. In this respect any claim following will be settled based on the findings of the investigation.

Item 250: General Limitations of Liability

Carrier's maximum liability for any shipment loss, damage or delay shall not exceed the maximum per pound per shipment value stated herein. The weight of packaging and/or shipping container shall not be included when determining additional indemnity or maximum liability. Accordingly, Carrier's maximum liability for any shipment loss, damage or delay shall be as follows:

Category	Per Pound	Maximum Per Shipment
Used	0.50	500.00
Pallet Rates	1.00	2,500.00
Freight Density >30 (Class 50-60)	1.00	2,500.00
Freight Density 15-30 (Class 65-70)	2.00	2,500.00
Freight Density 9-15 (Class 77.5-100)	3.00	2,500.00
Freight Density 6-9 (Class 110-150)	4.00	2,500.00
Freight Density <6 (Class 175-500)	5.00	2,500.00

PALLET RATES - For freight rated using a standard or fixed price per pallet position (rather than a rate based on only the shipment weight), the Carrier's liability limits shall be determined by referencing the General Limitations of Liability for 'Pallet Rates' in the above table.

USED FREIGHT - If cargo has been reconditioned, refurbished, rebuilt, remanufactured, and even if it is being shipped in its original packaging, or packaging similar to its original packaging, it is to be deemed USED for the purpose of the applicable rates and liability limits. Cargo is considered NEW if it has come from the manufacturing or growing facility, and it remains in its original box, carton, or shipping container, and has never been removed from the manufacturer's original packaging.

The freight density (Weight/Cubic Feet) of the shipment shall determine the Carrier's liability for each shipment. If the freight density is unavailable, the carrier's liability shall be determined by the freight class of the shipment, in accordance with NMFC freight classification guidelines. Freight subject to an FAK rating shall be indemnified using the Carrier liability limits of the class or density at which the freight was rated.

The weight of packaging and/or shipping container shall not be included when determining additional insurance coverage or maximum liability. Carrier considers a pallet to weigh 50 pounds.

Item 255: Additional Liability Coverage

If Shipper desires to tender a shipment requiring Carrier liability in excess of the per pound liability limitations set forth in Item 250, then Shipper must state in writing in the description of articles or Declared Value section on the original Bill of Lading the declared value of the shipment and that Additional Liability Coverage is requested. The notation of Additional Liability Coverage and the declared value of the shipment must be placed on the original Bill of Lading with the description in lettering at least one inch in height.

Example: A shipper requesting \$10,000 in Additional Liability Coverage would notate the Bill of Lading in the "Declared Value" box provided on the Bill of Lading at the time of shipping as follows:

7	The agreed or DECLARED VALUE of the property is hereby specifically stated to be not exceeding: \$ 10,000.00
<small>NOTE - Where the rate is dependant on value, shippers are required to state specifically in writing the agreed or declared value of the property.</small>	

In the event that the Shipper does not use Carrier's standard Bill of Lading containing the language as outlined in the example above, the conditions outlined in this section will still apply and the procedure outlined must still be completed by Shipper, if Additional Liability Coverage is requested.

Additional Liability Coverage purchased by the Shipper will apply to the shipment as a whole and will be prorated across the entire shipment in the event of a partial loss or damage.

An Additional Liability Coverage Fee, as set forth in the Accessorial Rate Chart, will be charged to the Shipper, Consignee or identified payer of the freight charges. The charge will be in addition to any applicable freight charge and is not subject to any discount. The charge will be payable by the party responsible for payment of the freight charges and shall be considered and treated as additional freight charges.

Carrier is not, under any circumstances, an insurance company or provider. Carrier does not sell insurance coverage. Additional Liability Coverage is not and will not be considered as insurance for the shipment.

In no event shall the Carrier's maximum liability for any shipment exceed the actual value of the cargo (whether new or used), \$10,000, or the maximum liability limits published herein. If Carrier transports shipments in connection with other carriers (either air, motor, water or rail) Carrier's maximum liability in the event of loss or damage will not exceed the lesser of the Carrier's maximum liability hereunder or the maximum liability of the other carrier.

In all cases, the weight of packaging and/or shipping container, pallets, skids and the like shall not be included when determining additional liability coverage or maximum liability.

Any effort to request Additional Liability Coverage or declare a value in excess of the maximum indemnity limits allowed in this tariff is null and void. Inadvertent acceptance of shipments bearing such a request does not constitute a waiver of the maximum value or indemnity limits by the Carrier.

Additional liability coverage may be denied at the Carrier's discretion.

Item 360: Bills of Lading - Freight Bills and Statements of Charges

Corrected Bills of Lading

Corrected bills of lading will be accepted provided the following conditions are met:

A Bill of Lading Correction Charge, in addition to all other applicable charges, will be assessed against the payer of the freight charges for processing such corrected bills of lading. See Accessorial Rate Chart for Pricing.

Corrected bills of lading will not be accepted after payment has been received by Carrier.

Corrected bills of lading or other instructions to change the freight charges collection status from prepaid to collect will not be accepted after the shipment has been delivered unless the Consignee has established credit and is in good standing with the Carrier. Written authorization is required by the party accepting responsibility for payment.

In Carrier's sole discretion, a corrected bill of lading may be accepted to change the original freight charges collection status, if the party requesting a change in the collection status, will guarantee payment of the freight charges should the new responsible party fail to pay within the prescribed credit guidelines.

A request to change the original freight charges collection status from collect to prepaid will be considered if the designated payer has established credit and is in good-standing with the Carrier.

A request to change the original freight charges collection status to a third party and the third party is not shown on the bill of lading at the time of shipment, the payer designated on the bill of lading shall submit a corrected bill of lading AND the third party shall notify the Carrier in writing of charge acceptance. The third party must have established credit, in good-standing with the Carrier.

Redelivery, storage, or other charges that become applicable on shipments that have been refused due to the freight charges collection status will be assessed against the party responsible for payment of the freight charges on the corrected bill of lading.

Corrected bills of lading changing the description, density or weight of commodities in a shipment will not be accepted by the Carrier without submission of conclusive documentary proof that the description, density or weight is as claimed on the corrected bill of lading. The Carrier reserves the right to refuse corrections where the validity of the correction information has not been verified to the satisfaction of the Carrier, or where execution of the correction request would violate laws, rules or regulations.

A Bill of Lading Correction charge will be assessed whenever a Consignor neglects to include a valid quote number on the original bill of lading and a change is required to add the quote number and rate at a later date. See Accessorial Rate Chart for Pricing.

Item 365: Bills of Lading - Contract Terms and Conditions

Unless otherwise agreed to in writing, in advance of carriage, contract terms shall be those as indicated in the Carrier's bill of lading or in the National Motor Freight Classification 100 Item 365 "Uniform Bill of Lading" in effect on the date shipment was tendered to the Carrier. Only Carrier officials or personnel authorized to do so by the Carrier may agree to alter contract terms and conditions and/or the use of an alternate bill of lading referencing such terms and conditions. Drivers employed or hired by the Carrier are among those not considered to be authorized Carrier personnel. Driver signature on bill of lading represents only that freight has been received by Carrier

Reference made to tariffs or "tariffs on file" means tariffs contained in the Carrier's files. Such tariffs shall be available to Consignor on request to the extent that they apply to the Consignor and the Consignor's representative has authority to obtain such. Carrier's tariff is further made available at www.shipcc.com.

Item 367: Bills of Lading - FAK - Freight All Kinds

For all transportation moving under FAK rates, Consignor shall be obliged to identify the specific commodity or product moving under such rates on the bill of lading. In the event that Consignor fails to so identify the specific commodity or product, Carrier shall not be liable for any damages to or destruction of such product or commodity occasioned by or resulting from the loading of such product or commodity on the same trailer with other freight that is either incompatible with the product or commodity moving on FAK rates or is prohibited by applicable federal, state or local laws and regulations from being co-loaded on the same trailer with the product or commodity moving under FAK rates.

Item 370: Blind Shipment

When a third party controls the movement of the freight but does not want the Consignor or consignee to know the name of the other, the shipment is considered a "Blind Shipment". The following conditions will apply to blind shipments:

Two bills of lading are required and both must be prepaid. Conditions outlined here must be submitted to Carrier before the shipment is tendered for transportation. If the final delivery information is not received prior to pickup, the request will be handled as "Reconsignment".

The original bill of lading from the Consignor must show the actual Consignor name, address, city, state and zip code with the Carrier's terminal serving the Consignor as the Consignee.

The corrected bill of lading will identify the Carrier as the Consignor, using the Carrier's terminal address information and the actual consignee name and address. The corrected bill of lading must reflect a Third Party; which must have established credit, in good-standing with the Carrier. A letter of authority requesting the change must be sent to Carrier.

The invoice is generated from the Corrected bill of lading.

The freight bill will reference the corrected bill of lading information and the original bill of lading freight bill number.

Carrier will take reasonable efforts to maintain confidentiality, but does not guarantee the confidentiality of the transaction.

A Blind Shipment Charge, in conjunction with all other applicable charges will be assessed for this service. See Accessorial Rate Chart for Pricing.

Carrier must be satisfied that the requestor has the legal authority to divert the shipment.

Charges for "Marking or Tagging" will be waived.

Carrier will make a diligent effort to execute a request for Blind Shipment, but will not be responsible if such service is not accepted.

Item 390: Capacity Loads

Spot quotes are required for a shipment that occupies the full visible capacity of a vehicle or cannot be loaded in one vehicle.

Item 410: Credit Card Processing

The Credit Card Processing Fee is the charge assessed for each credit card payment that Carrier is requested to process for payment of a shipment(s) or invoice(s). This fee shall be applied to the payment being made by the payer in order to offset the bank service fees incurred by the payee for processing the credit card payment. See the Accessorial Rate Chart for current rates.

Item 430: Collect on Delivery (COD) Shipments

When a shipment is tendered to Carrier and is identified as a COD shipment, the following charges and provisions will apply.

The shipment is subject to the COD Accessorial Charge and maximum COD amounts listed in the Accessorial Rate Chart.

Consignor must place the letters COD immediately before the Consignee name on the bill of lading. The amount of the COD must be clearly written in the appropriate space on the bill of lading. In addition, the appropriate box on the Bill of Lading must be marked.

Each package must be plainly marked, labeled, or tagged by the Consignor showing letters COD, name and address of Consignor and Consignee.

Remittance

Remittance will be made to the Consignor unless clearly stated otherwise on the bill of lading at the time of tender. Carrier will not serve as the remittance agent or payee. The Consignor or designated agent, other than the Carrier, may be listed as the payee on the payment form.

A company check, personal check, money order, certified check, or cashiers check will be accepted. If the Consignor does not specify a specific form of payment, the Carrier may accept any form of payment listed herein. Under no circumstances will cash be accepted as a form of payment. All payments will be made in US Dollars.

Carrier will remit each COD amount collected directly to the Consignor (or Payee) within 15 days after delivery and will be sent U.S. Mail.

Carrier is not liable for collection and remittance if the Consignor does not adhere to the requirements outlined herein, the Consignee refuses the shipment, or the shipment is returned to the Consignor.

Carrier is not liable if the COD amount is not collectable as a result of stop payment, insufficient funds, invalid signature, lost or stolen instruments, uncollected funds, forgery, fraudulent or counterfeit instruments, post-dated checks, or any other reason beyond the Carrier's control.

If the freight is held on Carrier's dock for more than 6 hours, storage fees will be assessed. See Accessorial Rate Chart for current rates.

Item 435: Debris Removal

If requested by the Consignor or Consignee, Carrier may remove and dispose of packaging materials. The Debris Removal Accessorial Charge will apply for this service. See Accessorial Rate Chart for current rates.

Item 450: Delivery on Arrival

If requested, Carrier may deliver freight immediately after it is received rather than as part of its standard daily operations. Examples of situations where this would apply include: pickup from airport for immediate delivery, pickup from consignor for immediate delivery to airport, or any other situation where immediate delivery is requested. This service is subject to Carrier's availability. For this service, the normal pick up, delivery, and any applicable accessorial charges will apply, in addition to the Delivery on Arrival Accessorial Charge. See the Accessorial Rate Chart for current rates.

Item 485: Notification/Appointments

When the Carrier receives instructions to establish a specific appointment time for delivery of goods, the Notification/Appointment Accessorial Charge will be assessed to the shipment. The party responsible for payment of services must pay for such services. See Accessorial Rate Chart for current rates.

Item 488: Density Based Classification and Reclassification

For shipments where the National Motor Freight Classification (NMFC) freight class was not provided by the Shipper on the Bill of Lading, or the freight class provided by the Shipper on the Bill of Lading is not accurate in accordance with NMFC guidelines, the freight class will be determined by the density of the freight for purposes of rating the shipment. The freight density of the shipment is calculated by using the formula: Freight Density = Shipment Weight / Shipment Cubic Feet. The calculated freight density is matched to a standard NMFC freight class by referencing the chart below.

Density >=	Density <	Freight Class
50	999,999	50
35	50	55
30	35	60
22.5	30	65
15	22.5	70
13.5	15	77.5
12	13.5	85
10.5	12	92.5
9	10.5	100
8	9	110
7	8	125
6	7	150
5	6	175
4	5	200
3	4	250
2	3	300
1	2	400
0	1	500

When Freight Dimensions or NMCF freight class are not provided by the Shipper, the shipment will be rated using the 150 freight class. The shipment will be subject to inspection by Carrier. The rate is subject to change based on using the actual freight density of the shipment, as determined by Carrier during inspection of shipment and applying the rating method described earlier in this section.

For shipments containing multiple handling units with different freight densities or multiple pieces with different NMFC freight classifications, the shipment will be rated by using the the rating method described earlier in this section by using the average freight density of the entire shipment and referencing the chart above to determine the appropriate NMFC freight class to be used for purposes of rating the shipment.

Reclassification Charge

If an inaccurate NMFC freight class is provided by the Shipper, the Carrier reserves the right to charge a Weight and Inspection accessorial charge. See Accessorial Rate Chart for current rates

Item 490: Application of Dimension Weight

Dimensional or Dim weight is determined by multiplying length, times width, times height (in inches). Fractions of inches shall be rounded up to the nearest inch before calculation. Divide the total by 172 to determine dimensional weight. $(L \times W \times H)/172 = \text{Dim Weight}$

Irregular shaped items are squared, multiplying the largest dimension, in inches, by itself. Then multiply the result by the length or height, in inches, to determine cubic inches.

Each shipment is subject to the Dimension Weight guidelines, unless the shipment was rated using NMFC classification guidelines, Carrier specified Density Based Classification (Item 488), or the shipment was rated by unit or pallet. Freight charges shall be determined by applying the greater of the dimensional and the actual weight.

Item 495: Packing

When Consignor requests that freight be packaged by Carrier, the Packaging Accessorial Charge will be assessed. This charge is assessed as an hourly rate. Billable hours will include travel to and from the pick up location to the Carrier's terminal, if done outside of Carriers standard pick up and/or delivery operations. See Accessorial Chart for current rates.

Consignors or Consignees may provide pallets and packaging materials for packing services. Carrier is not liable to Consignor or Consignee for loss or damage of pallets or packing materials. If Carrier is required to transport materials and line haul services are required, freight charges shall apply. If requested by Consignor and it is operationally feasible for the Carrier, Carrier may provide pallets and packaging materials which shall be charged as per quote.

When requested by the Consignor or Consignee, Carrier may document serial numbers and inventory which shall be provided to the Consignor or Consignee as directed. The Packing Accessorial charge will apply.

Item 500: Detention

When the Carrier is delayed by the Consignor or Consignee for loading or unloading, detention charges will begin upon the expiration of the applicable free time allowed.

Free time will begin when the Carrier notifies the Consignor or Consignee that the vehicle is available for loading or unloading.

For calculation of detention charges, fractions of an hour will be rounded to the next quarter hour and billed accordingly.

Detention periods end when the Consignor or Consignee notifies the Carrier that the vehicle is available for movement. Failure to notify the Carrier will not absolve the Consignor or Consignee from paying applicable charges

Detention With Power

The Detention With Power Accessorial will apply when Carrier is detained with a powered delivery vehicle (Tractor, Straight Truck, Cargo Van, etc.) for more than 30 minutes. See Accessorial Rate Chart for current rates.

Detention Without Power

The Detention Without Power Accessorial will apply when an unpowered delivery equipment (Trailer, etc.) is detained for more than 60 minutes. See Accessorial Rate Chart for current rates

Item 560: Extra Labor

Labor

When additional assistance is requested by the Consignor, Consignee or Third Party Payer to complete a pick up or delivery and Carrier is required to mobilize an additional labor resource to facilitate the request, an Extra Labor Accessorial Charge will be assessed. This charge will be assessed on an hourly basis and the calculation of the total hours required will begin from the time that the extra labor departs from the Carrier's facility and ends when the extra labor returns to the Carrier's facility. If the extra labor does not immediately return to the Carrier's facility, the extra labor hours end when the extra labor departs from the Consignor or Consignee's location. See Accessorial Rate Chart for current rates.

Mileage

When additional assistance is requested by the Consignor, Consignee or Third Party Payer to complete a pick up or delivery and Carrier is required to mobilize additional labor resource independently to facilitate the request, an Extra Labor Mileage Accessorial Charge will be assessed. The Extra Labor Mileage is assessed for round trip miles from the extra labor resource's place of origin to the place of service and does not include the labor resource's hourly travel time. It only includes use of the vehicle. The Extra Labor Accessorial will apply in addition to the Extra Labor Miles Accessorial when an additional labor resource is required to mobilize independently. See Accessorial Chart for current rates.

Item 562: Glass Surcharge

The Glass Accessorial charge will be assessed to any shipment containing glass, such a windshields, mirrors, glassware, etc.. If multiple glass items are included in one shipment, only one charge will be applied. See Accessorial Chart for current rates.

Item 566: Inside Pick up or Delivery

When a Consignor or Consignee requests and the Carrier's operating conditions permit, Carrier may move all or part of shipments from or to positions beyond the point directly accessible, immediately adjacent to the vehicle, or beyond the first threshold of the structure. Such shipments are subject to an Inside Pickup & Delivery Accessorial Charge. See Accessorial Rate Chart for current rates.

Service to an upper or lower story will be provided only when an elevator or escalator is available or pre-delivery notification is made and authorization is obtained from the Carrier.

Item 567: Hazardous Materials

Carrier may accept only certain hazardous materials for transportation, only upon Carrier's prior written consent. All shipments containing hazardous materials must be properly classified, described, packaged, marked, labeled, and in proper condition for transportation according to the applicable regulations and requirements. Carrier accepts only certain hazardous materials. See Item 780 Prohibited Articles. Consignor must be expert in regulations regarding the packaging, handling, storing, and transporting of the hazardous materials in its possession. Consignor shall not rely on information obtained from the Carrier or its employees, representatives, or agents. In no case shall the Carrier be liable for information or instruction regarding hazardous materials handling that is provided to the Consignor or Consignee by its employees, representatives, or agents.

Consignor shall indemnify the Carrier for all costs, fees, and expenses incurred as a result of the Consignor's violation of any such local, state, and federal law or regulations.

A Hazardous Materials Accessorial charge will be assessed to shipments containing materials that are considered hazardous and must be declared as such according to federal regulations. See the Accessorial Rate Chart for current rates.

Nothing in this rule shall obligate the Carrier to transport shipments beyond the scope of its operating certificates or in violation of any law, regulation, or ordinance.

A notice of 24 hours must be given to Carrier before tendering shipments that contain more than 1,000 pounds of hazardous materials.

Item 568: Fuel Surcharge

A fuel surcharge shall be applied to freight charges using the following matrix. Fuel prices are based on the average National diesel price per U.S. gallon as listed by the Department of Energy every Monday and effective on Tuesday. If the current fuel price exceeds the maximum price listed in the matrix below, the applicable fuel surcharge can be determined by adding one half of one percent (1/2%) for each five cents in excess of the maximum fuel price listed in the matrix.

Liftgate service is contingent upon the carrier's equipment availability. Carrier may refuse to provide a liftgate service if it is determined that the characteristics of the freight present a potential safety hazard. The Liftgate Accessorial will apply for this service. See Accessorial Rate Chart for current rates.
